Finding:

1713-E&F: Based on Observations and interview: While supervising a group of children, childcare staff did not devote their time to supervision of the children, meeting the needs of the children, and in participation with the children in their activities. On September 20, 2018 while completing a walk through of the facility Specialist observed S20 using her cell phone while responsible for the supervision of a group of 8 napping one year old children. Specialist looked into the classroom window prior to entering and observed S20's phone lit up and S20's attention focused on her phone. Specialist entered the classroom; and, S20 immediately turned her cell phone over and placed it on the desk beside her. S20 stated that she was not on the phone, but just looking at it. Specialist reminded S1 that a warning was given in regards to supervision participation on August 29, 2018 in regards to this same issue. Specialist reminded S1 and S20 that supervision participation applies during naptime.
